I am a motivated and passionate final-year student completing my Bachelor of Science in Information Technology, with a strong aspiration to advance into the field of data engineering. My academic foundation has equipped me with solid skills in programming languages such as Python, Java, C#, and C++, alongside practical experience in database systems, SQL, and networking. I am passionate about designing and optimizing data pipelines, managing large-scale datasets, and leveraging technology to transform raw information into meaningful insights. I am eager to contribute to projects that harness data for innovation and impact, and I look forward to deepening my expertise in data engineering through advanced study and hands-on application.

## Experience

---

### **Chairperson | Faculty of Natural and Agricultural Sciences (Student Academic Chapter) | North-West University, Vanderbijlpark Campus**

**September 2024 – October 2025**

- Developed strategic year plans for the faculty growth.
- Reviewed budgets regularly to ensure the financial stability of the faculty while making necessary adjustments.
- Managed crisis situations effectively, minimizing negative impact on the committee and faculty's reputation.
- Enhanced committee communication by streamlining meeting agendas and support materials.
- Chaired committee meetings.
- Overlooked every committee activity and every portfolio to ensure that every committee member performs well and as required.

### **Academic Officer | Faculty of Natural and Agricultural Sciences (Student Academic Chapter) | North-West University, Vanderbijlpark Campus**

**August 2023 – September 2024**

- I contributed to school-wide initiatives aimed at improving overall quality of education for all student within the institution.
- Designed engaging activities and projects that reinforce key concepts and stimulate intellectual curiosity.
- Collaborated with faculty, staff and students to identify and address institutional challenges.
- Coordinated and supervised academic advising activities.
- Implemented strategies to increase student recruiting, engagement and retention.
- Developed and implemented student success initiatives to recognize and encourage achievement.

### **Statistics Tutor | North-West University, Vanderbijlpark Campus**

**February 2024 – November 2025**

- Managed time efficiently during tutoring sessions, ensuring all important topics were covered without compromising depth of instruction and quality of engagement.

- Guided students through complex statistical content.
- Improved student's understanding of statistical concepts by incorporating real-world examples and applications.
- Assisted professors by providing input on areas where students struggled or excelled during tutoring sessions.

## **PROJECTS**

### **Sunrise Private Hospital**

I designed a centralized operational database that integrates patient records, appointments, laboratory results, billing, and inventory into a single reliable platform. The system improves efficiency by automating workflows such as scheduling, ward allocation, and inventory updates while ensuring financial transparency and regulatory compliance. It enforces role-based access control to protect patient confidentiality and supports real-time information sharing across all hospital departments.

## **Education**

---

### **Bachelor of Science in Information Technology | North-West University**

**February 2023 – November 2026**

## **Skills**

---

### **Technical Skills**

Programming Languages: Java, Python, C++, C#, HTML/CSS, SQL

Core Concepts: Data Structures and Algorithms

Developer Tools: PyCharm, Code Blocks, BlueJ, Visual Studio, VS Code, Excel, MySQL, Oracle SQL

Libraries: Pandas, NumPy, Matplotlib

### **Soft Skills**

Communication

Problem solving

Leadership

Collaboration

Adaptability

Attention to detail
